description:

Luxurious 2-bedroom new-build apartment with high-end fittings and exceptional design.

The Residences offer comfort and service with excellent facilities and services, including a cafe, a private meeting room and various leisure / and communal areas such as the rooftop swimming pool, a modern gym, an elegant pavilion or the "Owners Lounge". Modern urban living is redefined here.

This luxurious new-build apartment has a total living area of around 118 square meters, spread over 2 bedrooms and 2 bathrooms, one en suite and a spacious living area with an open-plan kitchen and a utility room. Two spacious terraces with a total area of 40 sqm run around the corners and can be accessed from both bedrooms and the living area.

The residential complex is equipped with a high-tech security system, video surveillance and a 24-hour concierge service.

Sustainability is a top priority here. Energy class A is achieved through the use of rainwater, intelligent planting and façade greening, as well as the use of top-quality materials. This is the first multi-family building on the island to achieve this energy class.

A combination of the RAW and Vanity design lines adorns this luxurious dream home and ensures a comfortable and clear living ambience. Extras such as a concept for the entire interior design can also be ordered.

Parking spaces in the building's own underground garage can be purchased for €30,000, including an electric charging station if desired.
