description:

Situated right in the centre of the village of Sa Pobla, these two 3-storey houses were built at the beginning of the 19th century. Together they offer a constructed area of 1.700 sqm, ideal to be incorporated into an investment project.

A total constructed area of 1,700 m² make these properties universally usable in the realisation of investment projects. The plot area of the two houses totals approx. 1,200 sqm, and one of them has a patio of more than 400 sqm.

This means that different building concepts would be possible during the realisation of a project - for example a town-villa, a residential apartment complex, commercial projects for gastronomy, a medical centre, educational facilities, or a business centre.

The owner of the properties places particular importance on discretion during the marketing of this real estate rarity.
